

ARCAM

DiVA HOME CINEMA
AVR280 RECEIVER & DV135 DVD PLAYER

AVR280 RECEIVER

The AVR280 is Arcam's highest performing entry-level 7.1 channel home cinema receiver to date. It delivers 80 watts per channel into all seven channels and 100 watts into two channels with the kind of audiophile reproduction you'd expect from Arcam.

A host of audiophile quality components and design techniques are used within the AVR280, making it perfect for a combined movie and music system. Movie lovers will be thrilled at the dynamic power and sound-staging the AVR280 delivers, while music enthusiasts will be enraptured by its passionate performance. Its feature list is perfect for mid-size cinema systems, even incorporating the latest HDMI switching for DVD players, set-top boxes or gaming systems.

The AVR280 excels in both audiovisual performance and connectivity, making it *the* choice for the discerning enthusiast.

- 7 x 80 watts per channel continuous power output (all channels driven)
- Dolby Digital EX, DTS ES, DTS24/96 and Dolby Pro Logic IIx algorithms
- HDMI switching (2x inputs, 1x output)
- Component and RGB-C video switching to HDTV specification
- Video up conversion (Composite or S-Video to Component/RGB-C)
- Lip-sync adjustment of up to 220ms ensures the most realistic experience regardless of display device
- Audiophile sound quality for both movies and music
- Second zone output with audio and video
- Two-way RS232 control port
- FM/AM RDS equipped tuner
- Perfect partner for the DiVA DV135 / DV137 DVD players

DV135 DVD PLAYER

Arcam's new entry-level DVD player produces a picture and sound quality that will delight all who witness it. The DV135 uses parts and techniques more commonly seen in sophisticated broadcast equipment to great effect.

Using state-of-the-art technology including 720p / 1080i upscaling, the video performance from the DV135 is extraordinary, delivering a clean, crisp and film-like picture that leaves its competition standing. The stylish CR515 remote handset is included.

As you would expect from a company with a 30-year heritage, audio performance from the DV135 is remarkable, its world-class design delivering stunning music from all discs.

The DV135 delivers simply breathtaking results from any of your favourite discs.
